

Nathan Evans, Days Of Our Lives

Do you ever wonder why
Time is always passing by
Like stars in the night
Even though we're growing old
Everything that I've been told
My inner child is screaming now
and deep down somewhere it says

I've been holding on to something
Time moves slow, nights were long, days were golden
I've been holding on to something
In my mind baby those were the days our lifes
Like Dominos we fall like we're broken
But in the end we'll know when it's over
I've been holding on to something
In my mind baby Those were the days our lifes

Those were the days our lifes
Those were the days our lifes

I just wanna press rewind
neon lights and purple skies
Go back to the start
chasing all these memories in paradise just you and me
I take your hand look in your eyes
And hold you close just one more time

I've been holding on to something
Time moves slow nights were long days were golden
I've been holding on to something
In my mind baby those were the days our lifes
Like Dominos we fall like we're broken
But in the end we'll know when it's over
I've been holding on to something
In my mind baby those were the days our lifes

Those were the days our lifes
Those were the days our lifes
The days of our lifes
Those days of our lifes
Like Dominos we fall like we're broken
But in the end we'll know when it's over
I've been holding on to something
In my mind baby those were the days our lifes
