

Nathan Graham, Somebody Else

Sick of waiting on your call
Promised that you'd be there
Never stayed so long with nobody else
The way you treat me ain't fair

Said I had something to say
Said I had something more
Said you never felt this way and I'd never felt this before

Well I'll be your fool
I can't help myself
Rather take the chance of you breaking my heart than be with somebody else

Know me at my best
I know you at your worst
Tell me lies and I'll find a way to compromise 'til I've got nothing left

Well I'll be your fool
I can't help myself
Rather take the chance of you breaking my heart than be with somebody else

Well I'll be your fool
I can't help myself
Rather take the chance of you breaking my heart than be with somebody else
Rather take the chance of you breaking my heart than be with somebody else
Rather take the chance of you breaking my heart than be with somebody else
