

# Nathan Sykes, Famous

I believe, believe in love,  
I believe, believe in love that won't die  
But no matter how I try,  
I just can't make you realize  
I've been here all along,  
But when it comes to me and you,  
With my lights on.  
Cause you always think that,  
You can do better, better, better.

But will you call me, when I'm famous?  
When I'm famous, would you call my name?  
Will you call me, when I'm famous?  
When I'm famous, will you call my name?  
When I'm famous...

Now, what's a man gonna do to make you happy,  
Is it all about the fortune and fame?  
Would you care, if they scream my name?  
If they did, I would still feel the same.  
I've been here all along,  
But when it comes to me and you,  
With my lights on.  
Cause you always think that,  
You can do better, better, better.

But will you call me, when I'm famous?  
When I'm famous, would you call my name?  
Will you call me, when I'm famous?  
When I'm famous, will you call my name?

If I told you honestly,  
Honestly I don't believe,  
You would take the diamond rings,  
Things would only fade overnight.  
I'd rather you and me,  
Living in another dream,  
Making new the reality,  
And hopefully,  
You will call me, when I'm famous.

When I'm famous, will you call my name?  
Will you call me?  
When I'm famous, baby,  
When I'm famous, will you call my name?  
Now I will, you call me,  
Will you call me?  
Now will you call?  
/2x

No, no, no, baby  
Cause I believe, believe in love,  
I believe, believe in love that won't die,  
It can only get better, better, better.
