

# Naturally7, Close 2 Me

I took a chance, I went without your love  
But now I'm coming back, cause I had enough  
Of being lonely, you're my only source of strength  
It won't matter how much farther,  
If it's you, I'll go the length....

Take me up to that higher place

I'm not worthy of

All your love and grace

Chorus

I just want you to be close to me

That's the way that it's suppose to be

I just need you to be close to me

Only you can play me close

Lord your love for me's the most

Took your love for granted

But that ain't me no more

I know that's for sure

I'll never let you....down that way again

It's a miracle you found me and your more than just a friend...

Chorus

Let's get closer.....closer than that

Let's get closer (yea) closer than that

Let's get closer.....closer than that

Let's get closer and closer

Chorus

Take me up (take me up) take me up to that higher place

You know I'm not worthy, I cried out you heard me

Take me up, take me up, take me up,

(Just, just a little bit closer,)

(Got, got to get to know ya.)

(Upclose where I can hold ya)...close to me, close to me.
