

Naturally7, Closer

Closer

We need to get a little closer
Need to connect with each other
Before we forget how to love
I still believe in love
I know I'm not dreaming
Life is only what we want to make of it
Everybody needs to get a little bit closer
Better

It's gonna be a little better
We will be free if we surrender
And know what it means to love
I still believe in love
I know I'm not dreaming
Life is only what we want to make of it
Everybody needs to get a little bit closer
Only when I open up my eyes to the truth
Can I see my own reflection mirrored in you
You look a little deeper and you will see
We were meant to be closer

Closer

We need to get a little closer
Need to connect with each other
Before we forget how to love
I still believe in love
I know I'm not dreaming
Life is only what we want to make of it
Everybody needs to get a little bit closer
I still believe in love
I know I'm not dreaming
Life is only what we want to make of it
Everybody needs to get a little bit closer
