

Naturally7, Cool

Walk in the room and yea! I'm that dude
I'm never rude, I'm never crude
Cause I got nothin' to prove.....(that's right)
My speech is tight, I ain't the silent type
When I talk it's straight New York
Plus I walk in the light.....now ain't that.....
C-O-O-L....what that spell

Chorus

COOL....ain't no one cool like me (don't think you can be)
COOL....Ain't no one cool like we (we cool like family)
COOL....That's G-O-D in me (just understand me)
C-O-O-L.. what that spell...Cool!

You can't imagine the smooth that I'm movin'
I move a mountain, stop a river with this faith that I'm using.....now that's deep
Slide through the door....(wooh!) and I bring life to the joint
When I dress, I must confess, that I'm always on point....now that's the.....

Chorus

All night, all day (COOL)
We keep it cool, yo that's the only way (COOL)
All day, all night (alright)
C-O-O-L what that spell
See you ain't cool so go head nah baby
Cause you rockin' twenty-two inch shoes on that Mercedes
And you thinkin' you nice cause Jacob makin' you icy
And you livin' a life where you don't care what the price be
But that don't make you cool I ain't impressed with what you got
See even Elmer Fudd got a mansion and a yacht
So understand, make it part of your plan
To be cool you find favor with God and man
And that's cool and we're cool from the stage to the street
So cool that everywhere we go we have to bring the heat

Chorus

I'm upperlimit, I'm untouchable
I got my swag going kid you know that I'm fly
Gibberish never ever coming from I
Rank #1 in the eyes of Jah
Crisp pair of jeans with the hat all fitted 'what'
Butter soft leather with the tim's (let me lace it up)
Pre-eminent being showing love from up above, right?
Helps spit diamonds on this solid gold mic
My man Roger said 'yo homie do what you like'
So I did what I liked, so I did what I liked
N7 said 'yo Jay do what you like'
So I did what I do
Now help me spell out cool.....

Chorus

(I'm so smooth)
(Keep it cool)
(I'm so smooth)
C-O-O-L what that spell....Cool
Um ha.....I'm cool like dat
