

# Nause, Dynamite (feat. Pretty Sister)

I got myself together  
And no, you ain't no friend of mine  
There'll be no more tears for you, now  
You see, I'm moving on fast  
Finally got the pass  
Leave this pain behind

You cut deep, babe, but you don't see  
You don't care, you don't bleed  
You blow my mind like dynamite  
You go boom, boom, boom  
You cut deep and now I know  
Sweet, sweet words were all for show  
The fuse is set, the dynamite - it goes boom, boom  
Boom, boom, boom /10x

There will be no more retribution, no!  
So you better no waste your time  
I don't miss your arms around me  
No, no, no  
You know I put my hands in the fire  
When it burns me once  
I don't need it for a second time

You cut deep, babe, but you don't see  
You don't care, you don't bleed  
You blow my mind like dynamite  
You go boom, boom, boom  
You cut deep and now I know  
Sweet, sweet words were all for show  
The fuse is set, the dynamite - it goes boom, boom  
Boom, boom, boom /10x

I wish we ironed out the creases  
Way before we ran out of steam  
And I don't want to self-defeated  
But if you still don't get it  
You'll never gonna get it  
How could you be a friend of mine?
