

Nazareth, Light My Way

Locked in a shadow
Praying for release
You found my prison
Your love was the key
So come on, light my day
And come on, light my way.

Lonely's just a word now
Something from my past
Horizon's look brighter
Loving you will last
So come on, light my day
And come on, light my way.

The world's now my oyster
Had me marked "reject";
You changed the story
Gave me back respect
So come on, light my day
And come on, light my way.
