

Nazareth, Place In Your Heart

Is there a place in your heart left for me?
Is there some space where the parking sign says free?
Maybe there's just one little spot
Maybe some corner that you forgot
Is there a place in your heart left for me?

Well I know you got so many you can choose from
There's always flowers lying by your door
I bet your phone it never stops
Bet you're the queen at the local hops
I bet you get valentines but never keep the score

Is there a place in your heart left for me?
Is there some space where the parking sign says free?
Maybe there's just one little spot
Maybe some corner that you forgot
Is there a place in your heart left for me?

I bet your phone it never stops
I know you're the queen at the local hops
I bet you get valentines but never keep the score

Is there a place in your heart left for me?
Is there some space where the parking sign says free?
Maybe there's just one little spot
Maybe some corner that you forgot
Is there a place in your heart made for me?

Is there a place in your heart made for me?
Is there a place in your heart made for me?
