Nazz, She's Goin' Down

About time you took a stand But please don't misunderstand I know she won't be back again I think she's taken all she can

She's goin' down She's comin' 'round It's all over, she's goin' down She's goin' down for the last time Don't bother waiting for the next time around

The first time, it doesn't show And her kind, just come and go She's like a ship, a drifting free And now she's sinking in the sea
