

Nazz, Take The Hand

There's a hand that reaches
Reaches from a heart
One that isn't able
One that doesn't know just where to start

So it starts to tremble
Gives itself away
Strains to find a gesture
Something that the heart can easily say

Take the hand
It would mean so much to the heart to touch you
Play the part
Would you hold the hand and warm the heart

And take the heart that's waiting
Open it and find
There's a heart that's reaching
There's a heart that's reaching from inside
