

Ne-Yo, Mirror

[Verse 1:]

I must be honest with you babe (just gotta be honest babe)
I love to watch the faces that you make (when we make love ooo wee)
But when I'm behind you holding your hips and you close your eyes and bite your lips
I can't see you so might I suggest a change
Now mama please don't think me strange for what I'm about to say
(please don't think me strange)
If you know anything bout me by now
you know I'm a freak just follow my lead

[Chorus:]

Baby I love making love in front of the mirror (in front of the mirror)
So that I can watch you enjoying me (baby tonight)
Baby tonight let's try in front of the mirror (in front of the mirror)
Watching ourselves make love
Girl why don't we

[Verse 2:]

Little mama keep your chin up, please watch me do the...nasty
I like it when you make it move fast
Mami if I pull your head back
Cause I want you to see that we look so good together
I understand that your not ready for me to make my directorial debut
featuring me but starring you
Baby that's okay with me
Honestly this is the next best thing

[Chorus:]

Baby I love making love in front of the mirror (in front of the mirror)
So that I can watch you enjoying me (baby tonight)
Baby tonight let's try in front of the mirror (in front of the mirror)
Watching ourselves make love girl why don't we

I see you can you see me watching you loving it [8x]

[Chorus:]

Baby I love making love in front of the mirror (in front of the mirror)
So that I can watch you enjoying me (baby tonight)
Baby tonight let's try in front of the mirror (in front of the mirror)
Watching ourselves make love
girl why don't we

[Fading:]

Can we make love in front of the mirror
