

# Necrodeath, Flame Of Malignance

An archaic atmosphere surrounds me like flaming snakes in Lilith's womb  
Three candles mark their inner boundary and the night creatures stop their charts  
I gather the winds, I rend the clouds  
The evil nature has arrived under the kindly glance of the moon  
Your serpent eyes control the faded pages custodians of unforgotten words  
I bring storms, I unchain flames  
Flame of malignance nature of disgust  
Flame of malignance burn in the dust  
An avid hand are preparing the circle protected by the supreme flame  
The shining pentagram is burning now and your malignance will arise  
I gather...  
Flame of...  
PHNGLUI MGLWNAFH, CTHULHU R'LYEH, WGAHNAGAL FTHAN  
The shining...  
I bring...  
Flame of...
