

# Necrodeath, State Of Progressive Annihilation

Darkness wrap my locus  
Modifying my cells  
Fast suicide  
Haunts from the birth  
Implant myself in death  
Atrophic arts my feel  
Psycho syndrome  
Cerebroidal will

(chorus)  
Masochism, praise myself  
Draining of my own life  
Tasting blood in convulsion state  
Somatic injury to die

Necroctomy on my body  
Autophagy's before  
Limbs removal  
And bathe in blood  
Traumatism is pleasure  
Neurotic spasms dead  
Cerebrospinal  
Outside my back

(chorus)  
Playground of torment  
Suffice my need to kill  
Electro surgery  
Psychophiliac's will

Fragile soul - ignored by peace  
Effective search for pain  
Furious breath - smell abuse  
Self - punishment to gain  
Points of dying - reach the top  
As penetrance diminished  
Scorching days surround me  
Massacring to finish

(2nd chorus)  
Tensile pains  
Aroused together  
Ceratoid eyes gaze  
Aberrant stomach  
Lymphatic vessels fried  
Get torn forever  
Recto dermal tumour  
Works up to climax

Body's relief - the brain commands  
Demented urge to die  
Dried is blood . harms to dust  
My aftermath demised  
Reach beyond - to shift inside  
And decadence frenetic  
Deformed corpse remainder  
Forgotten an atrophic

(2nd chorus)
