

# Necrodeath, The Undead / Agony (reprise)

Night of horror, his killing in sight  
The Beast of hell brings new blood  
Eternal life, drinking the lymph  
The pale of death will remain  
Rising the king of Romanian hell  
Emerged from the abyss to be free  
Lustful intent to take up your soul  
Thirst for blood revenge

Unveil the grace of blood  
And pleasure of fear

Alive... in hell's domain  
Undead... and darkness' slave

Life aspiration, he's marking from hell  
Not living beyond his own death  
Banish the cross to join the legion  
Of the wicked living dead  
Religious warfare bursting' on earth  
The sunlight of long distance sight  
Fly to the tomb where darkness command  
Avoid the forces of light

Unveil the grace of blood  
And pleasure of fear

Arise... at your summit  
Descend... at darkest pit

Blood, demented lust of death  
The iron works the magic  
Sanctify your useless God  
The end will be so tragic  
No mortal souls again  
The Creature will arise  
Scorn the cross of fear and pain  
Order you to die

Walks through sunlight gates  
Just as the vampires call  
Torment... of your mind  
New life by your blood

Trapped in pain by hypnotic trance  
The sky turns black so near  
Indications above the ground  
Smiling at your fear  
Unknown diseases in your soul  
The oppression licks your spine  
Ascending from the grave of hell  
Death will fills your mind

Watch me stabbing my mind  
Corrosions of my soul  
Illusion... fills my eyes  
New life by your blood

Living in damnation, the undead spreads his plague  
Signifying the holy blame  
Nightmares are reality inside my head  
Sustain the reign of living dead
