

# Necromantia, Devilskin

Draped in silken skin and torment  
Hellbound and riding ghosts in flames  
I'll usurp the moon and kill the sun  
I'll sink the world into a dream of pain

I'll weave an invocation  
To insanity and rebirth  
Fiery lightning hold my hand  
Show me your face in black waters

My worst, declared enemies  
Are my most devoted slaves  
They inspire me a wolf idolatry  
I'll burn them in my witch-pyre

Tonight I'll drown the face of mankind  
Into the dark blood of it's own heart  
Even the shadows reflect my rage  
Tonight I'm wearing Satanskin

Tonight I'm wearing Satanskin  
And blood will paint my canvass  
Tonight I'm wearing Satanskin  
The beast is loose within me  
DEVILSKIN, SATANSKIN!
