

# Necrophagia, Painful Discharge

I lust for your pain  
classified sadistically insane  
try to survive  
run but you can't hide  
within my grasp, tense with fear

I'm on the hunt  
a psychopathic rage  
next victim soon will die  
sadistic grunt, post mortal cries

scream writhe in sweat  
painful discharge  
I tear your limbs apart  
death now descends  
rip out your heart there is no one like me  
I have no remorse or pity  
walk among the night if you dare  
I have no name  
I'm your worst f\*\*king nightmare

my satisfaction  
instinctive reaction  
to my blackened soul  
I have no control  
kill at command  
no need to understand  
why it has chosen me
