

# Necrophobic, The Third Of Arrivals

[Music: Sidegrd]

[Lyrics: Sidegrd, Ramstedt]

666 - we vomit on the crucifix  
Hell - as we come forth you'll hear demonic cries  
Fire - from the flames we rise to walk the earth  
War - our wrath will strike upon the skies

It's the dawn of satanic redemption  
Gasp for a last breath as you choke  
Polluted air, blackened dust from below  
Legions of demons take form as we evoke

The third of arrivals  
The bringer of storms  
The third is eternal  
The dark age reborn  
The third is unhuman  
The bringer of hordes  
The third is the final  
The lord of lords

[Lead: S.R.]

The angel of darkness fell from the sky  
Obsessed with hatred and fire  
With the purest evil ablazed in his eyes  
He raised his flaming empire

Wings black and torn  
Spread over sea and land  
The gates will open thrice  
And Satan will rise again

666 - we fuck the women sworn to Christ  
Hell - the feeble slaves of life will fall  
Fire - at the gates of heaven you shall burn  
War - our hatred is now all

The third of arrivals  
The bringer of storms  
The third is eternal  
The dark age reborn  
The third is unhuman  
The bringer of hordes  
The third is the final  
The lord of lords  
The lord of wars
