

Nedelle, You Take Me You Break Me

You take me then you break me I can't make it much longer baby
You make me then you break me I can't take it much longer baby

First it's flowers and music in spring and you do anything just to make me smile
The leafs they soon turn brown and you don't come around yes it's true

I had a party I didn't invite you but you came anyway with your brand new love
You met her at a show the lights were turning on wa oh oh oh oh

You take me...

Oh no you didn't oh no you didn't go
Oh no you didn't oh no you didn't go

Now it's ended this kind of affair doesn't go anywhere and you've left my side
You never shook my soul you only bruised my pride wa oh oh oh oh

You take me...

Oh no...
