

# NEEDTOBREATHE, More Time

I promised you the world again  
Everything within my hands  
All the riches one could dream  
They will come from me  
I hoped that you could understand  
That this is not what I had planned  
Please dont worry now  
It will turn around  
Cause I need more time  
Just a few more months and well be fine  
So say whats on your mind  
Cause I cant figure out just whats inside  
I hoped that you could understand  
That this is not what I had planned  
Please dont worry now  
It will turn around  
Cause I need more time  
Just a few more months and well be fine  
So say whats on your mind  
Cause I cant figure out just whats inside  
So say alright  
Cause I know we can make it if we try  
Cause I need more time  
Just a few more months and well be fine  
Were off to new lands  
So hold on to my hands  
Its gonna be alright  
Its a whole lot brighter  
So stand by the fire  
Its gonna be alright  
Yeah, the road gets harder  
But its not much farther  
Its gonna be alright  
You know that it aint easy  
Please believe me  
Its gonna be alright  
Please dont worry now  
It will turn around  
Cause I need more time  
Just a few more months and well be fine  
So say whats on your mind  
Cause I cant figure out just whats inside  
So say alright  
Cause I know we can make it if we try  
Cause I need more time  
Just a few more months and well be fine
