

# Negative, Better Without You

the nights are so long  
This endless sleepless night  
and something in me  
puuttuu lause.

it's all in my head,  
sometimes i can't forget  
this can't be wrong,  
i need some time,  
i need some peace of mind.

Take me away,  
but let my heart to stay  
i need to feel depressive of your love  
with me in to the place,  
the place away from here  
i need some time to myself away from you

that was a time when i  
i was upsed and going insane  
and i was begging you,  
begging you to stay  
you said: this  
you need to find yourself again  
but all i needed is some peace of mind  
and you're not what i need.

take me away but let my heart to stay..
