X-ray  
Solar detection  
High resolution images  
Laser range, a chain of craters  
Silicon injection

Solar flare, an x-ray burst  
Fluorescent spectral emission  
Elemental maps, our vision  
Dreams, our inspiration

N.E.A.R. our future scrutinize  
Asteroid eros symbolize  
Exploration satisfy  
Our thirst for knowledge analyse

Topographic profiles  
Tectonic stress lines  
Markings so mysterious  
Scope the surface analyse

Multi-spectral images  
Infrared live measurements  
Solar explosions captured by the gamma ray detection
