

Negative Format, Static

Our nation it weeps
From the static in our eyes
Taken forces inside me
As they live in infamy
Degradation of our freedoms
From the static in our lives

Our world is on the edge
Greater hatred we've never seen
Are you ready for this explosion
As we gauge for consummation
Our world is never free
Always trapped by heresy

Our media it lies
Grafting terror in our minds
Twist the truth for all to see
As they show false imagery
News production from the past
Placing hatred in our lives

Reaction what's right
As we start this genocide
They would laugh at our release
As they spread their sick disease
Only leaves us with one question
How to fight this suicide
