

Negative Format, Vertex

Caught in this turmoil
Right sized vacancy
Detrimental reasoning
Logic factor deafening

Complicate my contour
Distort my fabrication
Inducing entropy
By social expectation

A cynic countersign
Erratic enterprise
A cynic countersign
A frantic exercise

Where does our vertex intersect
When does our system reconnect
I'm sick of waiting for a sign
Lethargic patterns cross the mind

Identify obscurity
Break neck replication
Analyzing this perspective
Obscene hallucination
Artificial data stream
Monotone decimation
As they breach the metacenter
Distant communication

A cynic countersign
Erratic enterprise
A cynic countersign
A frantic exercise

Where does our vertex intersect
When does our system reconnect
I'm sick of waiting for a sign
Lethargic patterns cross the mind
