

Negative Format, Warp

Twisting geometric shapes
Trying to fit and formulate
Energy beyond the motion
Changing the fabrics
Space and time to satisfy
Quantum inequality
Estimate not qualified
End result: moving tachyonically

Changing space surrounding
Curving matter miracle
Instant pulsing limitless
Time-like geodesic spectacle
Outer lining protective shield
Bubble in space symmetric
Powered by solar masses
Large energy deposits

Finding superior methods
Unlocking doors of space
Furthest reaches, closer to
Warp to new domains

Hyper-drive efficient travel
Godlike power movement
Stars exploding, luminal space
Phantom solar systems
Passing rapid outtake futures
Warp to distant planes
