

Negative, God Likes Your Style

It's like a sunbeam
when it's coming and blind me
don't be afraid now
all you need is
pray your God
God like your style

take a change now
save yourself
you better believe in
cause you're lame(?)
time is gone
have to be afraid
day is done
and all you need is pray your God
God like your style
it's like a sunbeam
when it's coming and blind me
don't be afraid now
all you need is pray your God
God likes your style
pray your God
God likes your style
pray your God
