

Negative, Touchless

Rain washing my faces
I still care
somewhere in those places
I never get in there
Like a leaving this pain
there's so much gone away
and I'll be waiting
all my life that day
so far away
but still so close
behind us, behind us

(chorus)
please hold me
kiss me, love me
don't ever leave me
when you hold me
then you kiss me
first you love me
then you leave me
now I'm seeing those places
but i don't care
I see two faces
when I look at myself
It's hard to leave this pain
it's never gone away
everywhere I go
it's gonna follow me
so far away
but still so close
behind us, behind us

(2x chorus)

Rain washing my faces
I still care
somewhere in those places
I never get in there
yes I know
I never get in there
I'm still waiting
all my life that day
