

Neil Diamond, At Night

At night
On some dark quiet street
Baby, that's where we meet
When day is through

They say
That our love isn't right
So I wait for each night to be with you

Till they realize
Our love's not some passing phase
We'll just meet at night and pray there
For better days

I wait for the darkness to come
Till we can walk in the sun,
We'll meet at night

I wait
For the darkness to come
Till we can walk in the sun,
We'll meet at night, at night.....

At night, come on, come on, now love
