

Neil Diamond, Clown Town

When a guy's been made a fool of
By a gal who only wants to play
He goes to a lonely place where lovers
Who are broken hearted stay

They call it
Clown Town, Clown Town
No joy around town and you see
That's just where I've been stayin'
Since you made a clown out of me

Baby, won't you come and get me
I can't take it here another day
It's not very hard to find
It's no more than a broken heart away

They call it
Clown Town, Clown Town
No joy around town and you see
That's just where I'll be stayin'
Baby, till you set me free

They call it
Clown Town, Clown Town
No joy around town and you see
That's just where I'll be stayin'
Baby, till you set me free

They call it
Clown Town, Clown Town
No joy around town and you see
That's just where I'll be stayin'
Baby, till you set me free
They call it
Clown Town, Clown Town,
Come and get me baby
