

Neil Diamond, Don't Go Away Mad

I guess you think
That if you snap your fingers
I'll forget
I'm supposed to jump for joy
'Cause you say you regret
Being so bad
Don't go away mad
Now just go away

Remember how you told me
You had some new interest
And with out a fuss
You dropped me
As if I was just yesterday's fad
Don't go away mad
Now just go away

You talked to me
One day feel like coal
You once used me
While you played the field
I played the fool

So forgive me if I doubt you
When you say you need me
I'll get over thinkin' bout you
And of everything we might have had
Don't go away mad
Now please go away
Before I ask you to stay
