

# Neil Diamond, Handle With Care

Tell me that we'll never be apart  
Say that you'll always be there  
And promise if you take my heart  
Oh darlin',  
Handle with care

You know I love you only  
There are none who compare  
So hold me when I am lonely  
And always  
Handle with care

I've heard stories of lovers apart  
Spending their nights all alone  
If you want me, take care of my heart....  
Remember it's the only one I own

Give me all your kisses  
Your love I don't want to share  
We may end up Mr. and Mrs.  
If only you,  
Handle with care
