

Neil Diamond, I'm Nobody's Fool

I know your kind, you pick a girl (guy)
Then change your mind and have a whirl
Now the gals (guys) that you've kissed say
I'm next on your list, uh, uh, baby...
I'm nobody's fool

You had you're fun by telling lies
And now you've come to claim this prize
Uh, uh baby
I'm nobody's fool

I've heard your ev'ry lie
Dear, it's the same old tune
Don't even waste your time here
Baby, I'm immune

Just turn around, be on your way
Don't hang around it doesn't pay
Cause I won't take a chance
On a one way romance
Uh, uh baby
I'm nobody's fool
