

Neil Diamond, I Seek The Night

I seek the night
And I rest my head
On my weary bed
And I think about you

And time's on my mind
I've been thinking about
What I'm doing without
With a boy like you
What's a girl to do

Yesterday was more or less
Just like the day before
And time don't matter
When there's nobody else around

Yesterday is dead and gone
And all I believe is in now
I believe and how my time has come

Why sleep at all
Just to rest my head
On a lonely bed
And to dream alone

Time's on my mind
And the last I heard
He was like a bird
Don't know where he flew
And what's a girl to do

What's a girl to do
What's a girl to do
