

Neil Diamond, I Walk A Crooked Street

Where I am, what I am
You're the only reason
Held me up, filled my cup,
Had the faith in me and love....

Owe it all to you, knowin' we're in love
There's nothing I can't do
And I'm not afraid to lose my way
'Cause if I walk a crooked street
You're there to lead me home

I've been through bad times
And some times worse
And till I met you 'happy' was just a word
But that all changed the day you came
Now if I walk a crooked street
You're there to lead me home

[Guitar instrumental]

And I'm not afraid to lose my way
'Cause if I walk a crooked street
You're there to lead me home
If I walk a crooked street
You're there to lead me home
