

# Neil Diamond, Mountains Of Love

Someday,  
Make your way  
Down the coast of South Africa  
There you will say  
They're in need of a mountain of love

Sail away  
And you reach all the way down to China  
Don't look away  
They're in need of what we've plenty of

Got enough to surround  
Every living thing we see  
There's enough  
To include even you and me  
So just keep on tryin'  
Climbin' to the top  
Check out that view from above  
At the top, there's mountains of love

In the end,  
Love is what I'm talkin' of  
Round the bend  
There's mountains of love  
Mountains of love

Come on children

I know from the glow  
That I see in the smallest child  
That we can go higher still  
Then we ever dreamed of

Don't you know  
There are magical places inside the heart  
Come on let's go  
We got room on that mountain of love,  
Room enough  
To surround every living thing we see  
Room enough  
To include even you and me

So, just keep on tryin'  
Climbin' to the top  
Check out that view from above  
At the top, there's mountains of love  
In the end,  
Love always seem to shine through  
'Round the bend for me and for you  
There's mountains of love

(Love's all right)  
Sing It  
(Mountains of love)

(Love's all right)  
(Mountains of love)  
Got to keep on climbin', Yeah

(Love's all right, mountains of love)  
(Love's all right, mountains of love)  
Come on everybody

To the top,

Let's check out that view from above  
It never stops  
There's mountains of love

In the end,  
Love always seems to shine through  
'Round the bend  
For me and for you  
At the top,  
Top of those mountains of love  
At the top, yeah  
Got more than enough
