

# Neil Diamond, Right By You

Right by you  
Right by you  
Want to do right by you  
All night long

Right by you  
Right by you  
Want to be right by you  
All night long

Why don't you tell me  
I need to hear you say it  
Come on and tell me  
Just wanna hear it told

Don't I do right by you  
Baby, don't I do right by you  
All night long

Come on and say it  
I love to hear you whisper  
Just say you love me  
I got to hear it told

Don't I do right by you  
Baby, don't I do right by you  
All night long

Don't I do right by you  
Baby, don't I do right by you  
All night long

Right by you  
Right by you  
Want to be right by you  
All night long

Right by you  
Right by you  
Want to be right

Right by you  
Right by you  
Want to do  
Right by you
