

# Neil Diamond, Save Me A Saturday Night

How did I ever find you?  
I've been waitin so long  
But now your trouble's behind you  
Time is hurrying on and all that I want  
Is save me a Saturday night  
Leave me some room at your table  
Slip into your heart if I might  
And stay just as long as I'm able  
Baby, save me a Saturday night

I'll be someone you count on  
Sure, it's hard to believe  
But try just keep me around, I'm yours  
I just want to be wherever you need me  
Save me a Saturday night  
Leave me some room at your table  
I want to slip into your heart if I might  
And stay just long as I'm able  
Baby, save me a Saturday night

....

Save me a Saturday night  
Leave me some room at your table  
I want to slip in to your heart if I might  
And stay there as long as I'm able  
Baby, save me a Saturday night

Please... a Saturday night  
Leave me some room at your table  
I want to slip in to your heart if I might  
And stay there as long as I'm able  
Baby, save me a Saturday night
