

# Neil Diamond, Steet Life

Hey, let me show you the street life  
Hey, let me show you the finks,  
The punks, the judge, the junkies  
Stay close to me for a while  
For a while, for a while

Say boy, you got to get street wise  
Hey, little boy  
You're a babe in arms  
Stay out of harm's way  
Wait right here with me for a while  
For a while, for a while

Street life, hell in the city  
You got to really watch out for that  
Street life  
Say, it ain't pretty  
You got to know your way around  
Or somehow you might get hurt  
Get hurt, get hurt

Say, let me show you the night life  
Say, let me show you the queens  
The dudes, the class, the crudes  
The folks that inhabit the night  
Let me set it right

I'm gonna give you my warning  
I'm gonna tell you the street's alive  
The sound of jive  
You've just arrived  
Try it for size for a while, for a while

Street life, hell in the city  
You got to really watch out for that  
Street life  
Say, it ain't pretty  
You got to know your way around  
Or somehow you might get hurt  
Get hurt, get hurt
