

# Neil Finn, Secret God

Let's go climb up on the roof  
In the twilight  
360 degree views  
As we lie down  
Watch the fading light turn into stars  
Here we are

Secret god  
Breathe my name  
Secret god  
Stir up the dust  
Whisper my name

This reminds me of another place  
(...) some wolf  
Comes down from the hills  
And he's walking in circles  
Howling at the moon

In another life  
He will be enchanted by a woman

Secret god  
Stir up the dust  
Breathe my name  
Secret god  
Stir up the dust  
Whisper my name

See a man collapse in the doorway of a restaurant  
Holding my hand out  
First one there to help him up

Secret god  
Stir up the dust  
Whisper my name  
Secret god  
Stir up the dust  
Breathe my name

Time on hand  
Stir up the dust  
Breathe my name  
Secret god  
Whisper my name
