

# Neil Finn, Truth

Remember who we are  
Supple and new  
If I lose my way  
You tell me the truth for all its worth  
Lifting up your hand, show me, i rescue  
What i said  
Truth is worth more than pride  
Truth is worth more than pride

Everything you do continues long after you've gone  
Circle overheard  
View from the bed  
So high I'm lonely  
Sixteen times a day  
He comes to ground  
To get some attention

What I said  
Truth is worth more than pride  
Truth just cannot be denied  
Truth is worth more than pride

Where you've showered me with riches  
If they say that I am worthy of their love and their attention  
But they still don't know the truth

Everything you do continues long after you've gone  
What I said  
Truth is worth more than pride  
Truth cannot be denied  
Truth is worth more than pride

View from the bed  
So high I'm lonely  
So high I'm lonely

Truth, worth more than pride  
Hey  
View from my bed  
So high I'm lonely  
So high I'm lonely
