

Neil Sedaka, I Am A Song

I AM A SONG

I'm a song and I've waited so long
For someone to come and sing me
I got a rhyme that I've had for some time
Nobody wants to sing me
Let me show, the world, that I'm, not through
Let me touch, your heart, the way I used to do
Sing me, sing me, now I got a song to be sung
Sing me, sing me, roll me around on your tongue
I got sunshine, I got a message to shout
Sing me, sing me, won't someone please let me out
Could I make you smile if I came back in style?
Tell me would you want to sing me?
Don't say I'm gone, never more to live on
Somebody's got to sing me
Let me fill , the air, with my, old song
If I let, you down, tell me where did I go wrong
Sing me, sing me, I got a song to be sung (yes I do)
Sing me, sing me, roll me around on your tongue
I got sunshine, I got a message to shout
Sing me, sing me, won't someone please let me out
I got music, I will share
I got music, now somebody cares, cares
