Neil Young & Crazy Horse, Little Thing Called Lov

See somebody walkin' down the street Hangin' head and a-shufflin' feet Don't take much to see What they've been thinkin' of. What makes you hypnotized? What puts a tear in your eye? What makes you have to choose? What brings you the blues? A little thing called love A little thing called love.

Only love puts a tear in your eye Only love makes you hypnotized Only love makes you choose Only love brings you the blues.

Wait a minute now, honey Don't be sad This may be the best love you ever had That don't mean that you had enough A little thing called love A little thing called love.

Only love puts a tear in your eye Only love makes you hypnotized Only love makes you choose Only love brings you the blues.

A little thing called love A little thing called love.
