Neil Young & Crazy Horse, Once I Was In Love

Once I was in love Now, it seems that time Is better spent Searching than in finding But no one seems to know.

So don't say you lose, Don't say you lose, Don't say you win, And no one else will know, No one else will know.

When you're down You gather strength To leave the ground And when you're high It makes you weak And you fall back down

Once I was in love Now, it seems that time Is better spent Searching than in finding But no one seems to know
