

Nekromantix, Hellbound

Dressed in black his face was white
No doubt he was a cenobite
Needless pins all over his head
Oh god that box's gonna be my death

It was a hellraiser a hellraiser
And now now now I'm hellbound

Night after night they were torturing me
They were mean, bad as cruel as they could be
Hooks in chains tearing apart my skin
That box brought me pierces I've never been
