

Nekromantix, Love At First Bite

Lean a little bit closer now
Thunder of time
Thy love has given me a sign
Before me thou kneelst
Invader of my heart
Maketh me the devil's
The devil's concubine

Two different worlds, now and forever
Take me away from all this death
I want to see you again (see you)

Love at first bite, we'll be together
Forever and ever and ever, eternally

And as the time goes by
Oh, I realize
Thy will is where I wouldst be
At night I sleep
Beside where dreams so sinister
Promise my friends of darkness
Even to me
