Nekromantix, Night Nurse

I'm in a deep deep sleep
And theres trouble dressed in white
She kisses me and tells me "Im your friend."
I'm in a deep deep sleep
And she wants to use my body as a scientific experiment
(night nurse! night nurse! night nurse! night nurse!)

You can forget about being off to fantasies
Well don't believe those stories about nurses playing birds and bees
(psycho!)

I'm in a deep deep sleep
And theres troubles dressed in white
She kisses me and whispers "I'm your friend."
I'm in a deep deep sleep
And she wants to use my body as a scientific experiment
