

# Nellie McKay, I Am Nothing

You  
Traffic on the line  
Strangers all around  
Nothing here but time  
I don't see a sound  
Floating high above  
Every little town  
People who can love

Please don't leave me now  
I am nothing  
Please don't leave me out  
I am nothing

You  
Coursing through my veins  
Pulsing every pound  
Panic on parade  
Cutting through the crowd  
Music fills my brain  
I know I letcha down  
Take me back again

Please don't leave me now  
I am nothing  
Please don't leave me out  
I am nothing

You  
Footsteps on the floor  
Do they make a sound  
Open up the door

Please don't leave me now
