

# Nellie McKay, The Down Low

I don't see nothing  
I don't see nothing  
I don't see nothing  
I don't see nothing

It isn't bad to know your limitations  
That we know can come to good  
But if you had to know your situation  
I see no reason you should  
You don't have to know

If you're in the clear  
It's on the down low  
And don't you find it  
Anything you hear  
It's on the down low  
And don't you mind it  
Hold your head up high  
That will see you through  
Dry your little eyes  
Don't mess up your life by seeking truth

It isn't hard to get an education  
Know you want to come to good  
But you can hardly bet on imitation  
And I see no reason you should  
You don't have to know

If you're in the clear  
It's on the down low  
And you won't find it  
Anything you hear  
It's on the down low  
And don't you mind it  
Walk right down the stairs  
That will see you through  
Drive the thoroughfare  
Don't mess up your life by seeking truth

You, you should live in flowers where the sun does shine  
Chingata chinga chinga chinga  
Chingata chinga chinga chinga oh ho lay  
I spend all my idle hours bidin time  
I know it ends some day

It isn't bad to diss your situation  
That we know can come to good  
But you'd be mad to miss your coronation  
And I see no reason you should  
You don't have to know

If you're in the clear  
It's on the down low  
And don't you find it  
Anything you hear  
It's on the down low  
And don't you mind it  
Hold your head up high  
That will see you through  
Dry your little eyes  
Don't mess up your life  
You're overreaching  
Trying to find to seek the truth...

I don't see nothing  
I don't see nothing  
I don't see nothing  
I don't see nothing

I don't see nothing  
I don't see nothing  
I don't see nothing  
I don't see nothing

I don't see nothing...
