

Nelly Furtado, Honesty

I believe in honesty
A little bit of honesty is always in my recipe
And you've been a good sign for me
But what I want for me
Is to make sure I get it just right this time

We're next in line
You're gonna slide
Into my life you're gonna occupy the space right
We're next in line
Let's take our time
Don't pull the trigger 'til the energy is just right

Gotta be just slow enough
Gotta breathe
Not too fast
Gotta be just slow enough
Why don't we stay focused?

I believe in honesty
A little bit of honesty is always in my recipe
And you've been a good sign for me
But what I want for me
Is to make sure I get it just right this time

We're next in line
Let's take our time
Don't pull the trigger 'til the energy is just right

You're fire
I don't really wanna waste your time
Go too fast and we get too high
Your eyes really make me wanna change my mind
Go too fast and we get too high

I believe in honesty
A little bit of honesty is always in my recipe
And you've been a good sign for me
But what I want for me
Is to make sure I get it just right this time

I believe in honesty
A little bit of honesty is always in my recipe
And you've been a good sign for me
But what I want for me
Is to make sure I get it just right this time
