(city spud)

Yo, for the nigga mention my name I let him know the deal

Now I push a range nigga, you know the name nigga

Peep the iceberg jeans, the ice chain nigga

And if I got beef I let the whole world know it

So if you got beef let the whole world know it

Yaun take it to the streets let the whole world know it

Its the chance for your big career, dont blow it

Or get it blown from the top gun nigga

I aint finished talkin bout it till ya top gone nigga

Dissin my crew you catch hot ones

Im hot son, yo thats why I carry hot guns

Im on a beach in l.a. fuckin fly misses

While you niggas at the crib tryna find misses

Yo Im gettin head from the mexican dime bitches

Them niggas mad cause they riches aint like my riches

(murphey lee)

A yo, Im murphey lee the school boy

The civilized jewel boy

I got not one, two, three, four, five, but six whores

For equality, vocal ? ? ? and wallabies

I smoke la like ? ? ? it got me boomin like bad-a-bing

Rap, dont gotta sing cause I get my hum on

Actually I get hummed on

Hoes tongues be on my dong dong

? ? ? long, head at night, head in the morn

Lunatic, five strong, king kongs are writin songs

Cats be gettin gone thinkin they got it goin on

Folks brought you a brawl, it all started in ya home

Check the background, st. louis clown from the u-town

Fourteen, pimp of the year like dru down

Same crew now, its too damn quiet but too loud

Hoes be pretendin always sayin they too proud

If I ruled the world, I do now

Me and the tics bout to rack em and move the crowd

(hook - lunatics) 2x

Call the cops, I see a robbery in progress

Lunatics about to steal the show

(where you from?)

]from the s-t-l, m-o, 3-1-4

(ali)

I rip grass and smash, with a 44 mag

This nigga jag, from the front to the back I heard it crash

Nigga ? ? ? ? ? hurt em bad, you heard him laugh

Talkin trash bout whoopin my ass

I never let a nigga do that, who that

Get his brains blew back with a new gat

Yellin true that, hollowtips is goin cleeeeean through that

And I didnt have to get my whole team just to do that

In a blue hat, with a black baggy karl kani

An iced out ring just to score on your eye

Hard to die, like bruce, lee get a victory

Cats is sick like h-i-v if they feelin weak

We be ? ? ? ? ? , jackie frost, ? ? ? ? ?

Danny terrio, ? ? ? ? shows to the motorola

Money hold up, whippin the rover, high roller dog

What you holdin, Im paid, so controllin yall

Yiggidy yes yall like das efx, is be next

To rep that midwest, its sets and projects

(keyaun)

Now once keyaun say hit the safe, raise the stakes

tics in fifty states, might as well blaze the cake

I got moves to make, transactions to handshakes
Drugs for papes, now Im sellin cds and tapes
Funerals and wakes caused by greed and hate
A snake is still a snake no matter the size or shape
Those that hate, anchored with weights, found in the lake
Come off the chain my main, you tied to the gate
First you caught a case, second you caught the babes
Third, you caught me with your date, that was no mistake
Good things come to those who wait
So if you waitin on them tics, huh, they gon be late
In your house with your spouse Im doin the nasty
Im a felon, ask jay, I rob industries and ashtrays
Branson and hashy, ? ? ? ? ? and wrap somethin
And burn the place, ya heard me
(nelly)
Watch me load up the ammo, cock it back slow
In the back door, infrared low
Tell me somethin that I dont already know
Like, which one of these closets contain cash flow
Got three little problems I just thought you should know
Peep, Im addicted to yes and Im allergic to no
Im obsessed with dough, money makin and the hoes
Anything other than satisfaction gon blow
Heard through the grapevine you lookin for me
Couldnt be, cause if it was you would be bookin from me
Shook when ya see nelly rollin in the gs-3
Hangin out the sunroof like bing, bing, bing
Back the car up, pop the trunk now
Can ya hold ya breath cause ima flood this town
That ass scream nine-second-five right here
Neighbors on the lawn like nelly, why right here
(hook) 1 1/2x
